**WARNING:**
During the diaper changing process, be sure always to keep one hand on the baby to prevent the baby from falling off the changing pad. Falling from the changing pad could cause severe injury or even death to the baby.

**Step 1.** Place a baby on the pad with his/her bottom on the top of the diaper. Safely secure the baby on the pad with the safety straps and buckle on the pad. This helps prevent the baby from falling off the pad, which can result in severe injury or even death of the baby.

**Step 2.** Remove the dirty diaper from the baby.

**Step 3.** Push the baby’s legs forward and create a cavity under the baby’s bottom. Clean the baby.

**Step 4.** Reattach the new diaper to a clean and happy baby!
